A selection of boulders and faces along the western side of Gowbarrow on the fellside above Aira Force and Cascade waterfalls.

A delightful location at its best on a spring evening. Later in the year, bracken will make moving between the various areas very troublesome.

The boulders are widely scattered across the fellside.

## Approach

Parking is best at the Higher car park, on the road between lakeside road at Aira Force and Dockray. It is also possible to park at the Lower car park.

Needless to say there is a small car park fee for parking at the car park - small amount for the fun to be had on the boulders.

There is a track down from the Upper car park which takes one to a gate - on the left is the Upper (Cascade) Bridge over the river. Once over the beck, a track goes down right to the Middle Bridge over the beck.

Ulls Table area is best approached from the village of Dockray and parking next to the bridge there. Between the Pandemic Wall area and the Main Area (Victory Boulder etc) there is a barbed wire fence. Please do not climb this but go back down to the path and walk down to the gate through the fence then back up.

## East side of Aira Beck

Gowbarrow Boulders - East overview

# Up and Atom Buttress

## Introduction

This is composed of a steep impressive wall (Lower Wall) and a small buttress on the right (Upper Buttress)

## Approach

From the Middle Bridge over Aira Beck, climb the stone steps eastwards, then turn right. After about 50m, go through the first gate you get to then turn up the faint path on your left. Where the fence bears left, continue directly up the fellside. After 200m you will see some rocks on a mound 20m to the left of the path; the buttress is below these rocks amongst silver birch trees.

## Aira Bloc / Sharkstooth / The Fin Area

### Introduction

This is a cluster of boulders, to the right of a stream. On the left is [Aira Bloc](#); to its right is [Sharkstooth](#) and in front is [The Fin](#).

### Approach

This is located well up the fellside up and left of [Up an Atom Buttress](#). Approach as for [Up and Atom Buttress](#) but follow by the fence leftwards and up to just before a stream. Continue upwards and you will see a cluster of boulders up an rightwards - this is the area.

Gowbarrow Boulders - Aira Block Area

## Aira Bloc

Gowbarrow Boulders - Aira Bloc and Sharkstooth

### 1 The Whale f6A

On the bloc uphill to the left of [Aira Bloc](#). Sit start on the left, traverse right into the underclings and top out on the right of the slot. This allows use of the lower detached boulder for feet.

25.05.2020 S Solomon

### 2 Ahab f6A+

Similar to [The Whale](#) - on the bloc uphill to the left of [Aira Bloc](#). Sit start on the left, traverse right into the underclings and top out on the right of the slot. **But** this does not allow use of the lower detached boulder for feet.

# Pandemic Wall

## Introduction

This buttress is to be found if you walk over the higher bridge at the Cascade Falls, Once over bridge, head up the hillside and rightwards for about 100m and you will find this face in the trees. It has some writing carved into the wall, please do not climb on this or set routes on this as it may have some significance.

Gowbarrow Boulders - Pandemic Wall

**1** Wash Your Hands f6A

Crackline traverse that starts at head height, hands in crack only, lots of undercuts, follow crack all the way and finish up [Panic Buy](#).

27.05.2020 Simon Young

## 2 Elbow Tap f4+

Start on square block again, traverse left for about 1m on obvious holds then up to ledge above, feels high at the top. Can get dirty when it hasn't been climbed for a while.

23.03.2020 Simon Young

## 3 Pandemic Wall f4+

First route set on wall. Start on big square hand hold at head height, finish straight up, no holds left of square block, using obvious side pull on left brings grade down to **f4**.

23.03.2020 Will Lord

## 4 Panic Buy f4+

To the right of [Pandemic Wall](#) start in the break at head height and holds around it, Straight up the rounded arête to nice holds for top out.

Sit start is **f5**.

23.03.2020 Will Lord

**5 No Hands Slab f2**

Up and to the right of the buttress there is a slab that is perfect for a warm up or a bit of no hands practice

# Ulls Table

## Introduction

This area is well left of the Main Area and can be approached from either side.

## Approach

The best approach is from Dockray. Follow the track to the main path up Gowbarrow Fell. There is a gate through a wall. At this point either follow the wall to the right to the stream and then follow the stream up the fellside to the buttress or head diagonal right to the stream and the buttress. It is also possible to bushwack across from the Main Area (Victory Boulder etc). Walk left above the fence, which eventually gives way into a wall. Keep going until you come out of the trees, then turn uphill, before a stream and across the rocky ground. The buttress is above the last of the trees lining the small stream.

#### 6 Ulls Crack f5

Sit start - hands in the crack.

19.04.2020 L Kerrs

#### 7 Ulls 7 f4

Straight up from the start of *Ulls crack*.

25.05.2020 L Kerrs

#### 8 Table Traverse f5+ †

Traverse from the right corner leftwards, with feet at about head height, and one tricky move in the middle, finishing at the furthest point

09.04.2023 Tony Mawer

#### 9 Never Kissed a Tory f6B

On the separate bloc to the right of the main face. From the slopers to the arete to the diagonal ledge.

25.05.2020 L Kerrs

Just above Ulls Table is a cigar shaped boulder which gives an interesting traverse.

## Gowbarrow Boulders - Ulls Sadle

### 10 Ulls Sadle f5+

80m uphill from [Ulls Table](#). Sit start on ledge and climb through scoop.

29.05.2020 L Kerrs

### 11 Ulls Pony Sadle f4+ †

Looks to be same route as Ulls Sadle. Directly above Ulls Table is a tiny saddle shaped section of rock. Sit start - matched on good ledge and reach for the top and over

## Bluebell Face

### Approach

This is in the same field as [Brunt Crag](#) and visible from the road 200m down from High Force car park.

① [Iceland Moss](#) f6A+ † 3m

Sit Start to the left of the fallen tree, using only the holds with no moss, true eliminate!

9.09.2020 L. Kerrs

There is an interesting highball crackline up the wall to the right of [Iceland Moss](#) !

# Force Bloc

## Approach

From High Force car park either -

- walk down the track towards the Upper Bridge and just before the gate walk rightwards, by the wall for about 400m to a gate, just above the Middle Bridge. Don't go through but follow the path downhill, for about 80m, to a white lichen stone. The bloc is to your left or
- at the top of the track cross the field diagonally rightwards to arrive at the gate and continue rightwards to the bloc.

If coming from the main area or up Aira Beck, at the middle bridge go upstream for 20m then take the left fork to reach the gate. The bloc is down to the left.

**Disturbance in the Force f6C+ †**

Sit Start on the bottom bloc to the layaway, up through crimps to top out.
