WARNING

You climb at your own risk. Climbing is a dangerous activity carrying the risk of serious injury or death. If you climb, the presumption is that you are aware of and accept these risks together with responsibility for your activities and your safety.

You are the sole judge of conditions, the suitability of any chosen route, the ability of the party and you take sole responsibility for your actions.

Rock is a dynamic medium and rockfalls are frequent. In the mountains the weather changes quickly, climbs change unpredictably; blocks, flakes and holds become loose and fall off, rock becomes vegetated and dirty, in situ gear deteriorates or disappears. Even a minor change can have a dramatic effect on the difficulty or seriousness of a route. There can be no presumption that any given climb will be found in the condition described. It is therefore essential that climbers judge the seriousness or difficulty of any route before committing themselves.

While every effort is made to present accurate information, the descriptions, grades and comments provided in this guidebook are compiled from a number of sources. They may contain errors, are subjective or may have changed and should not be relied on. Neither the FRCC nor anyone involved with the production of this guide can be held responsible for any inaccuracies, omissions or mistakes, nor liable for any personal or third party injuries or damage, howsoever caused, arising from the use of this information.

Cockley Crag West Overview

Cockley Crag West

 20 mins Aspect: **South**  

Approach

NY 247 027 This small crag is situated 300m left of the [Main Crag](#).

Cockley Crag West

1 Cockade HVS 5a † **New** 27m

Fine climbing up the hanging groove on the left end of the buttress. Start below a clean triangular slab climb the slab to gain the groove follow this direct to finish up the slabs above.

12.05.24 M Scrowston, PC Bennett

2 Concocktion HS † **New** 25m

Start 2m right of [Cockade](#) at a large detached block. From the top of the block a rough ridge leads to a large flake left of a small holly tree. Move up and right, step across a shallow grassy gully to finish up the ridge and slabs above.

12.05.24 M Scrowston, PC Bennett

3 Hen's Teeth S † **New** 23m

Start below a clean rib right of a grassy gully. The rib and groove lead to a short headwall which is turned on the left to a second groove; an awkward move back right gives access to the final rib.

12.05.2024 M Scrowston, PC Bennett

4 Rooster Wall S † **New** 14m

The wall and groove between [Hen's Teeth](#) and [Midget Gem](#).

12.05.2024 PC Bennett, M Scrowston

5 Midget Gem S 13m
