

# Quarry Crag

OS Ref: NY 245001

Alt: 375m

Grades

7

2

2

The natural outcrop above a disused quarry that is marked on the 1:25000 OS map. Height ~18m.

## Approach

Park at SD 237 996, space for 2-3 vehicles at a triangular widening and forest access gate 200m up the valley from the Forestry Commission car park. Walk along the track till it fades out at a clearing / turning head, then head uphill for 50m to a stile over the forest fence. A good path runs along the fellside above the stone wall. Follow this northwards for a few hundred metres to the old quarry workings, the natural crag lies just above.

Quarry Crag

**1 Well and Truly Ribbed** VS 4b † **New** 18m

The fine rib on the buttress on the left.

06.2021 R Graham

**2 Ribbing Time** VD † **New** 18m

The pleasant crack right of [Well and Truly Ribbed](#).

06.2021 R Graham, T Rogers

**3 Riboflavin** HVS 4c † **New** 18m

Climb the rib with interest.

06.2021 R Graham, T Rogers

**4 Ribozyme** E2 5c † **New** 18m

Hard start leading to crackline.

06.2021 R Graham, T Rogers

**5 RNA** HVS 5a † **New** 18m

An alternative start to [Ribozyme](#) starting up [Rhesus Factor](#).

06.2021 T Rogers, R Graham

6 **Rhesus Factor** E1 5b † New 18m

A fine direct line up the crag.

06.2021 T Rogers, R Graham

7 **Rhyme and Reason** VS 4c † New 18m

This takes the central grooveline finish out left.

06.2021 R Graham, T Rogers
